LOVE THE OPTIONS

I bought this product three months ago. It's my first LG product. I really like the look and ease of use. The steam feature is great when I don't need to wash but want to get some wrinkles without having to iron. I am very happy with my purchase.

+ Pros: Performance

✓ Yes, I recommend this product.

AWESOME! ABSOLUTELY A MUST BUY!

My wife and I just bought both Washer and Dryer and had them delivered yesterday 27Jun16. We are just so impressed with all the awesome features both appliances offer. Not to mention the efficiency of both too! An absolutely must buy!!!

+ Pros: Style/Design, Features/Settings, Performance, Quality, easy to use

✓ Yes, I recommend this product.

GREAT DRYER, ALSO PLAYS A CUTE JINGLE

Great dryer with lots of features. My wife loves the musical jingle at the end to let us know th drying is finished. But some of the features are hard to understand and use. There are too many jargons in the name of the features (such as SteamFresh, SteamSanitary, etc.)

⊕ **Pros:** Style/Design, Features/Settings, Quality

☑ **Yes,** I recommend this product.

IT DOESN'T DRY WELL WITH SMALLER LOADS

I bought the dryer in October, 2015. Unfortunately I didn't not notice that the cycles are not easily identified. The cycle is selected with a light and the lines to select are not clear. In addition it does not dry well when the loads are smaller. I keep having to keep drying the loa They are stackable, but don't make the mistake we did, it's not very comfortable to use. It us less space but like I said, they are uncomfortable to use. The washer is too low and the drye too high!

+ Pros: Style/Design, Quality

⊗ No, I do not recommend this product.

VERY VERY QUIET AND DRYING IS EXCELLENT.

I bought this unit on 12/2014. I have had cero issues with it. I had the exhaust hole mesh plugged with lint and the dryer gave me a code, checked my owners manual and told me to clean my vents. Problem solved! I clean my exhaust vent outside my house every other mon since then. The dryer is very quiet. I have no doors for the dryer and washer, and with them both going, I can barely tell they are going from the living room with I about 10 feet away. I bought it at Sears. Very happy with Sears customer service, and this LG washer/dryer comb

WILL I DAMAGE THE DRYER IF I USE A GAS LINE RATED FOR 60K-75K

Answer this Question

NeilE · 5 months ago

We do not have a listing for the BTU rating for a gas line. The unit does require pipe, which may require an adapter to a standard 1/8" NPT Pipe Plug. This info page 22 of your Installation Guide. Most of our dryers run between 20,000 and upon the model, energy rating, etc. The specific rating will be listed on the model the unit itself.

Answer this Question

NeilE · 11 months ago

We regret the trouble you have experienced with this dryer. From what location to be leaking? If it is around the dispenser drawer or the door, then it would be the seals for cleanliness, to prevent escape of steam. If the water is on the doc possibility of condensation when a very hot item comes in contact with cold air appear to be the situation, then the unit may require service. To make service either contact our Customer Interactive Center at 800-243-0000, or you can ch Lookup on our website, at <http://www.lg.com/us/support/repair/support-repair-f>
